Sustainability Strategy
of the Vision for Lifelong Beauty Partner
—Milestone2030

2025 Progress Report

KOSÉ Holdings Corporation

Creating Beauty
in a Sustainable World

Your Lifelong Beauty Partner

A radiance that is uniquely yours.
May you recognize your unique value
and let it shine freely,
every moment of every day.
We celebrate your individuality
to bring boundless joy.

KOSÉ revitalizes people and the Earth,
constantly making life shine brighter.

Creating Beauty
in a Sustainable World

Approach to the Sustainability Strategy

The role of the Sustainability Strategy in the KOSÉ Group is to integrate commitment to solving social and environmental material issues into value creation and our corporate fundamentals within our medium- to long-term vision. Our corporate message was made “Creating Beauty in a Sustainable World” as a guiding principle for sustainability, and we set “Mind to Follow the Right Path” as a fundamental policy, which is the same as the code of conduct. We will strive for sustainable growth in both society and the Group while being there for people and the Earth, and aim for “Your Lifelong Beauty Partner” using an approach that encompasses the ideal of society and the environment.

■ Guiding Principle for Sustainability

Creating Beauty in a Sustainable World

As in our Corporate Message, this expresses our commitment to the value we create for the benefit of people and all of society, and for the future of the Earth.

Since our founding, we have conducted business activities with the help of social ties and the blessings of nature. It means we will contribute to the world using all the intelligent creation of beauty in order to realize the future we are aiming for.

■ Fundamental Policy

Mind to Follow the Right Path.

Just like our Behavioral Charter which is the foundation of the governance system, this policy shows that we will continue to be a fair and transparent public institution with the same sincerity as the meaning of part of the company's name.

Vision Your Lifelong Beauty Partner

Being free to define what beauty means to you

Accepting each other as we are and growing together

Building a future while honoring all our bonds

Living in harmony with a healthy Earth for generations

Financial targets

- Ratio to net sales
- Overseas sales ratio
- Operating margin
- EBITDA margin
- ROIC

Non-financial targets

- Global personnel vs. Global key posts
- Product/service ratio using Adaptability ∞
- Activities contributing to wellbeing
- People who have raised environmental awareness
- CO₂ emission reduction rate

Highlights of the Sustainability Strategy in Milestone2030

In addition to the initiatives and targets highlighted in medium-term strategy, the Sustainability Strategy sets targets and initiatives for each issue to address the material issues of medium- to long-term vision.

<Highlights : For people>

Continue creating ideas involving the value of beauty that originate from diversity

- Adaptability activities for reflecting diversity in business operations
- Many ideas for value involving the diversity of beauty while using both global and local perspectives

Indicator: Ratio of products and services provided based on Adaptability ∞ (Eight)

Use beauty for lives with greater fulfillment of body and mind

- Increase activities in the wellbeing and corporate social responsibility domains
- Build support frameworks for specific purposes, such as education for members of the next generation

Indicator: No. of initiatives for achieving well-being

<Business Fundamentals>

Issues in Promoting Sustainability Support Foundation Enhancement

- Respect for human rights
- Strengthening the corporate governance framework
- Customer's perspective
- Supply Chain Management

▶▶▶ Adaptability (WEB)

▶▶▶ Medium-term strategy (WEB)

▶▶▶ Sustainability (WEB)

< Highlights : For the Earth >

Raise public awareness of environmental issues

- Visualization of KOSÉ's contributions involving environmental issues by disclosing environmental data concerning products and other activities
- Provision of a large volume of environmental data to help consumers select products

Indicator: Increase in awareness of environmental issues through products, services and information transmissions

Lower environmental impact of global operations and the value chain

- More information about the global environment and activities concerning environmental issues
- Strengthening the understanding of information in the value chain in climate change action and more

Indicator: Reduce CO₂ emissions (Scope1·2·3)

Progress of Each Initiative (For People)

	Material Issues	Commitment	Indicators	FY2025 Results	Targets	Achiev	Relevant SDGs
For People	Respect the diverse array of beauty	Through adaptability, provide products and services where customers of various backgrounds can experience their own unique beauty	Ratio of products and services provided based on Adaptability ∞ (Eight)	88.8%*1	100%	2030	   
	Support the healthy minds and healthy lives	Pursue activities where the people of society can experience well-being through beauty	No. of initiatives for achieving well-being	265activities Cumulative total since FY2020	500 or more activities	2030	 
			No. of participants in social contribution activities based on hands-on experiences	To be disclosed in 2027	50,000 or more people	2030	 
			Procurement rate of certified raw materials and purchase of RSPO-certified credits through the Book & Claim (B&C) supply chain model	45.4%	100%	2030	 
	Help with social opportunities	Raise awareness and provide opportunities to participate in society for people of all diversities	No. of people reached through DE&I awareness initiatives focusing on the 3Gs*2	993,047people Cumulative total since FY2020	1 million or more people	2030	   

*1 Each brand selects focus areas annually from KOSÉ's eight unique Adaptability ∞ (eight) themes. The overall achievement rate is calculated based on the number of services/products delivered for those selected items.

*2 Global, Gender, and Generation

Progress of Each Initiative (For the Earth 1)

For the Earth	Material Issues	Commitment	Indicators	FY2025 Results	Targets	Achieve	Relevant SDGs

Main Initiatives During 2025

For People

Respect the diverse
array of beauty

Products and services provided based on Adaptability ∞ (Eight)

Adaptability

In order to broaden our customer vision, we promote the creation of value with a focus on individual identity so that we can meet the needs of our diverse customers. We have defined eight concrete initiative themes, which we have named "Adaptability∞," and we are applying them throughout all of our value creation. We have also linked the "3Gs" of "Global," "Gender," and "Generation," keywords for cultivating new customers, with adaptability, thereby creating new value.

Examples of Adaptability∞

-  Excluding no one
-  Blending diverse cultures
-  Adapted to all skin and hair types
-  User-friendly and simple
-  Unfettered by gender
-  Respectful expression
-  Harmonizing with personal beliefs
-  Transcending age constraints

- Supporting diverse skin colors
- Supporting women
- Expression that takes everyone into consideration
- Easy to use containers
- Support for developing countries
- Support for sports

Cosmetic products that even children can use

3G

Universal Design Reflecting Consumer Voices and
Pursuing Usability

We designed the INFINITY "The Repair" line to deliver exceptional skin firmness while thoroughly pursuing user-centric usability. By bringing consumer voices to life, we developed containers that open with minimal effort and feature highly visible designs. We created this forward-looking design to reduce physical strain, empowering everyone to continue their skincare routines with ease and comfort.

Confirming the Emergence of Highly Temperature-Resistant
Corals and Continuing Planting Efforts

Through 17 years of activities, we have planted a cumulative total of 130,356,598 m² of coral. Furthermore, the project identified "Miracle Corals," which boast excellent heat resistance and resist bleaching even in abnormally high water temperatures. By observing, researching, and continuously planting these corals, we create opportunities to raise public awareness about climate change and ecosystem shifts caused by global warming.

[DECORTÉ White Birch Forest Project] Planting
White Birch for Raw Materials to Build a Sustainable
Cycle

We conducted our first tree-planting activity as part of the "DECORTÉ White Birch Forest Project," which supports Bifuka Town in Hokkaido to conserve white birch forests and revitalize the local community. We plant white birch trees, a key raw material, aiming to build a sustainable cycle. Participants included KOSÉ employees, the Mayor of Bifuka Town, local government officials, representatives from KOSÉ's partner cosmetics specialty stores, and eight local elementary school students.
